

ALUCOM

Business: Leading producer of aluminium compounds

Sector: Aluminium compounds

Status: Current

ALUCOM AG is offering solutions for industries, paper & water treatment and construction industry, based on its own aluminium compounds. With its strategic location in Ludwigshafen am Rhein (the old BK Giuliani site), ALUCOM is one of the leading producers of aluminium compounds, inorganic coagulants, alumina and metal salts, and hydroxides (neutral, alkaline, acidic) as well as special aluminium chlorides, such as PAC and ACH. The company generates annual sales of approximately EUR 20m and employs 50 people. ALUCOM is a carve-out of the former aluminium business unit of Kurita Europe GmbH ("Kurita"), a subsidiary of Kurita Water Industries Ltd.
