

# ORGATREATMENTS

**Business:** Production of Bio-Compost

**Sector:** Recycling

**Status:** Current

## **ORGATREATMENTS**

Orgatreatments Pvt Ltd is headquartered in Pune, India, building, owning and operating India's most modern compost unit in Nanded, State of Maharashtra. Orgatreatments will generate a state-of-the-art bio-fertilizer and compost for the entire Indian market. The fertilizer has considerable positive effects on both growth and productivity of crops. Orgatreatments Pvt. Ltd. owns all relevant operating assets including the factory site.

The company has signed a long-term contract for bio-waste disposal with Citrus Processing India Pvt Ltd. ("CPI"), the leading producer of Frozen Concentrate Orange Juice ("FCOJ") in India. CPI is promoted by PepsiCo, Black River Asset Management, HDFC Limited and a group of Swiss based investors.

Orgatreatments is a joint undertaking of LIVIA Group and its strategic partner REMONDIS, a worldwide leading waste-management company. Each partner holds a 50 % stake in the business undertaking and will develop the facility in the mid to long term future.
