**LIVIA GROUP ANNOUNCES THE ACQUISITION OF PRIME EUROPEAN THERAPEUTICALS S.P.A. FROM ALBANY MOLECULAR RESEARCH INC.**

Munich, 01.08.2019 – LIVIA Corporate Development SE announces the acquisition of Prime European Therapeutics S.p.A. (“Euticals”), from Albany Molecular Research Inc. (“AMRI”). Headquartered in Lodi, Italy, Euticals is specialized in custom synthesis and the manufacture of active pharmaceutical ingredients (“APIs”).

Euticals runs the Lodi API manufacturing facility with 90 employees and more than EUR 25m in annual sales. The manufacturing facilities in Rozzano and Origgio, Italy, previously owned by Euticals, will remain with AMRI. Eutical’s large portfolio of APIs holds a number of stable long-term standard care products serving patients and healthcare globally while the chemical technology portfolio is covering some of the most challenging reagents and reactions.

The business will be rebranded to operate as Archimica and will continue to offer small- to large-scale commercial manufacturing as well as analytical support for the global biopharmaceutical market.

“With the acquisition of Euticals, LIVIA has decided to engage in both the field of manufacture and development of generic APIs as well a difficult-to-handle chemical technology”, states Prof. Dr. Dr. Peter Löw, founder and owner of LIVIA Group. “The combination of a strong reliable product portfolio, the experience in developing APIs for pharmaceutical application and exceptional chemical technology presents a very attractive growth opportunity for Archimica”.
